## 1. Introduction

I am from BIS coursework group no 3. Our topic for the website is “MARVELS”. Our group is,

NAME	IIT NO	UOW NO	STUDENT NO
Harithroo	2018531	W1742291	1
Thinura	2018397	W1742049	2
Sajani	2018458	W1742062	3
Nadeera	2018425	W1742292	4

## 2. Technical Discussion

I was allocated to the tasks of student one. The presentation page, Change font size and the Store. Also the individual page and the CV.

### 2.1 presentation page

I made the presentation page by inserting IIT logo and the logo of University of Westmister. The title “MARVEL” and the details of team members. Expect for the two logos everything else is centre aligned. And after 4 seconds page will be redirected to the main page.

```

## 2.2 Change font size

To change the font size, I used an external JavaScript file.

### Part of the HTML file

```

<script src="Store.js"></script>
</head>
<body>
    <div Id=whole>
        <div class=float>
            <button type="button" onclick="increaseFontSize()">+</button>
            <button type="button" onclick="decreaseFontSize()">-</button>
        </div>
    </div>

```

### Java script

---

```

function increaseFontSize() {
    docElement = document.getElementById('whole');
    style = window.getComputedStyle(docElement, null).getPropertyValue('font-size');
    currentFontSize = parseFloat(style);
    docElement.style.fontSize = (currentFontSize + 1) + 'px';
}

function decreaseFontSize() {
    docElement = document.getElementById('whole');
    style = window.getComputedStyle(docElement, null).getPropertyValue('font-size');
    currentFontSize = parseFloat(style);
    docElement.style.fontSize = (currentFontSize - 1) + 'px';
}

```

## 2.3 Store

For the store I used some movies as products, On the start page there is a form to get customer details and used “session storage” to make a cart (total bill).

The screenshot shows a website with a black background. At the top, there's a navigation bar with links: HOME, STORE, QUIZ, GALLERY, SITE MAP, ABOUT US, and FEEDBACK. The 'STORE' link is underlined. Below the navigation, there's a large 'Customer Details' form with fields for Full Name, Address, City, Country, and Email Address. The form has a dark grey background and white text. To the right of the form, there's a graphic of Iron Man's helmet and chest plate. In the bottom right corner, there's some text: 'Activate Windows', 'Go to Settings to activate Windows.', and 'By :HARITHROO'. At the very bottom left, it says 'Copyright © 2019, All Rights Reserved by MARVELS'.

### 3. Discussion of UI and application of UX principles

Our site is aimed at MARVEL fans, most of them are teenagers. I used a black background because of it. Also used images of heroes to make the page more attractive.

#### 3.1 Information architecture

##### a. Design

Inserted the same navigation bar so the user can easily go to other pages. Also used the same footer and inserted a link to the CV of the page editor.

### IRON MAN

**OVERVIEW**

A billionaire industrialist and genius inventor, Tony Stark (Robert Downey Jr.), is conducting weapons tests overseas, but terrorists kidnap him to force him to build a devastating weapon. Instead, he builds an armored suit and upends his captors. Returning to America, Stark refines the suit and uses it to combat crime and terrorism.

**BIOGRAPHY**

Genius inventor Tony Stark continued his father Howard Stark's weaponry business after his parents' untimely deaths and flew it to even greater heights of innovation. While in Afghanistan to demonstrate a new missile for the U.S. military, Stark's convoy came under fire by a terrorist group known as the Ten Rings and he was severely wounded. Taken prisoner by the group, Stark awoke in their headquarters to learn that shrapnel near his heart had nearly cost him his life, but swift action by scientist and fellow prisoner Ho Yinsen—who had inserted a powerful electromagnet in Stark's chest—would prolong it temporarily.

Stalling his captors after they demanded he build them a new weapon, Stark replaced the magnet with the RT, a miniature version of a device originally designed by his father, the Arc Reactor. Furthermore, he and Yinsen created a crude suit of armor which could provide them the means with which to escape. The suit worked as planned, though Yinsen sacrificed himself in order to allow Tony enough time to power it up to fight their terrorist captors.

### 3.4 Gestalt principles grouping

In the above example proximity that states that "objects or shapes that are close to one another appear to form groups" has been applied in the following elements:

In the above Screenshot all the movie cover photos are grouped together.

A screenshot of a user profile page for 'Harithroo Wijayawardhana'. The profile picture is a diamond-shaped photo of a man. The page is divided into sections: 'Personal Information' containing details like Name: Harithroo, Birthdate: 25/2/1999, Gender: Male, Residence: 84/4B, kalapaluwawa, Rajagiriya, and Nationality: Sri lankan; and 'Education' containing School: Thurstan College, G.C.E.         An unprecedented cinematic journey ten years in the making and spanning the entire Marvel
        Cinematic Universe,
        Marvel Studios' "Avengers: Infinity War" brings to the screen the ultimate, deadliest showdown of
        all time.
        As the Avengers and their allies have continued to protect the world from threats too large for any
        one hero to
        handle, a new danger has emerged from the cosmic shadows: Thanos. A despot of intergalactic
        infamy, his goal is
        to collect all six Infinity Stones, artifacts of unimaginable power, and use them to inflict his twisted
        will on
        all of reality. Everything the Avengers have fought for has led up to this moment - the fate of Earth
        and existence
        itself has never been more uncertain.

Wakanda,
    returns home to the isolated, technologically advanced African nation to succeed to the throne and
take his
    rightful place as king. But when a powerful old enemy reappears, T'Challa's mettle as king—and
Black Panther—is
    tested when he is drawn into a formidable conflict that puts the fate of Wakanda and the entire
world at risk.
    Faced with treachery and danger, the young king must rally his allies and release the full power of
Black Panther
    to defeat his foes and secure the safety of his people and their way of life.

        Marvel's "Captain America: Civil War" finds Steve Rogers leading the newly formed team of
        Avengers in
        their continued efforts to safeguard humanity. But after another incident involving the Avengers
        results
        in collateral damage, political pressure mounts to install a system of accountability, headed by a
        governing
        body to oversee and direct the team. The new status quo fractures the Avengers, resulting in two
        camps—one
        led by Steve Rogers and his desire for the Avengers to remain free to defend humanity without
        government
        interference, and the other following Tony Stark's surprising decision to support government
        oversight and
        accountability.

    After the cataclysmic events in New York with The Avengers, Marvel's "Captain America: The
    Winter Soldier,"

        finds Steve Rogers, aka Captain America, living quietly in Washington, D.C. and trying to adjust to
        the modern

            world. But when a S.H.I.E.L.D. colleague comes under attack, Steve becomes embroiled in a web of
            intrigue that

                threatens to put the world at risk. Joining forces with the Black Widow, Captain America struggles
                to expose

                    the ever-widening conspiracy while fighting off professional assassins sent to silence him at every
                    turn.

                        When the full scope of the villainous plot is revealed, Captain America and the Black Widow enlist
                        the help

                            of a new ally, the Falcon. However, they soon find themselves up against an unexpected and
                            formidable enemy--the Winter Soldier.

        From Marvel Studios comes "Doctor Strange," the story of world-famous neurosurgeon Dr.
        Stephen Strange
        whose life changes forever after a horrific car accident robs him of the use of his hands. When
        traditional
        medicine fails him, he is forced to look for healing, and hope, in an unlikely place—a mysterious
        enclave
        known as Kamar-Taj. He quickly learns that this is not just a center for healing but also the front
        line
        of a battle against unseen dark forces bent on destroying our reality. Before long Strange—armed
        with newly
        acquired magical powers—is forced to choose whether to return to his life of fortune and status or
        leave it
        all behind to defend the world as the most powerful sorcerer in existence.

        hunt after stealing a mysterious orb coveted by Ronan, a powerful villain with ambitions that

## OVERVIEW

<div>

<div class=para1>

A billionaire industrialist and genius inventor, Tony Stark (Robert Downey Jr.), is conducting weapons tests overseas, but terrorists kidnap him to force him to build a devastating weapon. Instead, he builds an armored suit and upends his captors. Returning to America, Stark refines the suit and uses it to combat crime and terrorism.

<div class=head4>

## BIOGRAPHY

<div>

<div class=para1>

Genius inventor Tony Stark continued his father Howard Stark's weaponry business after his parents' untimely deaths and flew it to even greater heights of innovation. While in Afghanistan to demonstrate a new missile for the U.S. military, Stark's convoy came under fire by a terrorist group known as the Ten Rings and he was severely wounded. Taken prisoner by the group, Stark awoke in their headquarters to learn that shrapnel near his heart had nearly cost him his life, but swift action by scientist and fellow prisoner Ho Yinsen—who had inserted a powerful electromagnet in Stark's chest—would prolong it temporarily.

</div><br>

<div class=para1>

Stalling his captors after they demanded he build them a new weapon, Stark replaced the magnet with the RT, a miniature version of a device originally designed by his father, the Arc Reactor. Furthermore, he and Yinsen created a crude suit of armor which could provide them the means with which to escape. The suit worked as planned, though Yinsen sacrificed himself in order to allow Tony enough time to power it up to fight their terrorist captors.

In this new beginning, scientist Bruce Banner desperately hunts for a cure to the gamma radiation that poisoned his cells and unleashes the unbridled force of rage within him: The Hulk.

Living in the shadows--cut off from a life he knew and the woman he loves, Betty Ross--Banner struggles to avoid the obsessive pursuit of his nemesis, General Thunderbolt Ross and the military machinery that seeks to capture him and brutally exploit his power.

As all three grapple with the secrets that led to the Hulk's creation, they are confronted with a monstrous new adversary known as the Abomination, whose destructive strength exceeds even the Hulk's own.

One scientist must make an agonizing final choice: accept a peaceful life as Bruce Banner or find heroism in the creature he holds inside--The Incredible Hulk.

<div class=para>
A young Peter Parker/Spider-Man (Tom Holland), who made his sensational debut in Captain America: Civil War,
begins to navigate his newfound identity as the web-slinging super hero in Spider-Man: Homecoming. Thrilled by
his experience with the Avengers, Peter returns home, where he lives with his Aunt May (Marisa Tomei), under the
watchful eye of his new mentor Tony Stark (Robert Downey, Jr.). Peter tries to fall back into his
normal daily
routine – distracted by thoughts of proving himself to be more than just your friendly
neighborhood Spider-Man –
but when the Vulture (Michael Keaton) emerges as a new villain, everything that Peter holds most
important will be
threatened.

As the son of Odin, king of the Norse gods, Thor will soon inherit the throne of Asgard from his aging
father. However, on the day that he is to be crowned, Thor reacts with brutality when the gods' enemies, the
Frost Giants, enter the palace in violation of their treaty. As punishment, Odin banishes Thor to Earth. While
Loki, Thor's brother, plots mischief in Asgard, Thor, now stripped of his powers, faces his greatest threat.

## IRON MAN

### OVERVIEW

A billionaire industrialist and genius inventor, Tony Stark (Robert Downey Jr.), is conducting weapons tests overseas, but terrorists kidnap him to force him to build a devastating weapon. Instead, he builds an armored suit and upends his captors. Returning to America, Stark refines the suit and uses it to combat crime and terrorism.

### BIOGRAPHY

Genius inventor Tony Stark continued his father Howard Stark's weaponry business after his parents' untimely deaths and flew it to even greater heights of innovation. While in Afghanistan to demonstrate a new missile for the U.S. military, Stark's convoy came under fire by a terrorist group known as the Ten Rings and he was severely wounded. Taken prisoner by the group, Stark awoke in their headquarters to learn that shrapnel near his heart had nearly cost him his life, but swift action by scientist and fellow prisoner Ho Yinsen—who had inserted a powerful electromagnet in Stark's chest—would prolong it temporarily.

Stalling his captors after they demanded he build them a new weapon, Stark replaced the magnet with the RT, a miniature version of a device originally designed by his father, the Arc Reactor. Furthermore, he and Yinsen created a crude suit of armor which could provide them the means with which to escape. The suit worked as planned, though Yinsen sacrificed himself in order to allow Tony enough time to power it up to fight their terrorist captors.
